YOUR HOME, BUT BETTER.
PRACTICAL STEPS TO A MORE SECURE HOME

Swish Windows and Doors
Helping you make the right choice every step of the way
Here are some practical ways to protect your home from intruders and advice on how to make sure your new windows or doors are high security.

<table>
<thead>
<tr>
<th>LOCK IT</th>
<th>STOP LOCK SNAPING</th>
<th>BACK DOORS ARE THE MOST VULNERABLE</th>
<th>HIDE YOUR KEYS</th>
<th>FIT A SPY HOLE IN YOUR NEW FRONT DOOR</th>
<th>FIT A HIGH QUALITY DOOR CHAIN</th>
<th>MAKE IT HARDER</th>
<th>CHOOSE HIGH SECURITY LOCKS</th>
<th>KEEP THE LIGHTS ON</th>
</tr>
</thead>
<tbody>
<tr>
<td>It may sound obvious but lock your doors and windows every time you leave the house, even when you’re just out in the garden. Keep doors locked even when you’re in and secure all external doors and downstairs or vulnerable windows at night.</td>
<td>Burglars often attack doors by ‘snapping’ or breaking the lock. Make sure your new front or back door is fitted with a high security anti-snap, anti-bump lock. Your local Swish Authorised Installer can demonstrate the latest in high security doors.</td>
<td>Out of sight back and side doors are often most vulnerable so make sure they are strong and fitted with high security locks.</td>
<td>Including car keys, keep them out of sight and away from the letterbox. Burglars can use a stick or rod to hook keys through the letterbox.</td>
<td>It’s important to be cautious when you’re at home and a spy hole lets you safely check who is calling.</td>
<td>This will help you maintain security even when you’re answering the door to unexpected visitors.</td>
<td>Keep ladders and tools stored away so they can’t be used to break into your home. Keep side gates are locked to prevent access to the rear of your house.</td>
<td>Make sure your new windows are fitted with multi-point locks tested to the stringent BS7950 Standard. Also choose windows with internal beads to prevent the glass unit from being tampered with.</td>
<td>Leave radios or lights in your house on a timer to make the property appear occupied.</td>
